## Practice tip

This tune is beginner-familiar but it has a wider interval at the opening (A → e is a perfect 5th) than any of the easy tunes. Practice that single jump in isolation: A4 to E5, ten times, until the embouchure shift feels automatic. Then string it together.

The middle section ( e2 e2 d2 d2 | C2 e2 A4 ) is good practice for controlled descending motion — keep each note evenly weighted; don't let the line slump.
